

Perdiswell Leisure Centre

- Case Study

Perdiswell Leisure Centre opened in January 2017 after a £10.5 million refurbishment and extension.

Braille information is featured on door signs all throughout the leisure centre and hearing loops are in place to support deaf visitors. The signs also use a colour-coding system which is designed to help those with dementia. In this project we supplied our Jigsaw secret fixed sign system which allows easier maintenance 5mm thick Frosted Lucite panels are spaced from the wall by 8mm, can be easily unlocked and removed to facilitate interior re-decoration and painting. Exterior branding included illuminated letters and custom fabricated stainless steel totem.

Made in England to ultra-fast lead times, we export signs to more than 40 countries and offer turnkey product and graphic design, in addition to wayfinding, manufacture and installation.
